

Rock Island Bay & Supreme Building

Rock Island Bay is one of the newest developments in the Fall Creek Falls region offering eleven beautiful river view lots with awesome panoramic views of the Caney Fork and Rocky Rivers. The majestic mountains of the Cumberland Plateau dot the background. One of my favorite finds this year has been the Rock Island area. There is no doubt that this is the best kept secret east of Nashville. Many Nashvillians have found out about this river haven

and spend many lazy summer days with family and friends.

Rock Island Bay, owned and developed by the Moore Family, owners of Supreme Building Products in McMinnville, TN has built their business since 1963 upon service and quality. The development is ideally situated with views not only of one of the three beloved rivers (Caney, Rocky and Collins) that meander through this valley and on into Center Hill Lake, but two of the rivers – the Caney Fork and the Rocky Rivers. Each lot has a hundred feet of waterfront views. Many of the residents have boathouses and custom built decks that encompass their boat slips, outdoor living area, diving board, and slides for the children's enjoyment, as well as fantastic views of the waterways.

Quality builder Waymon Hale built the first home at Rock Island Bay. This showcase home has over 4,000 square feet, the finest craftsmanship using top rated materials, amazing views, and over 1,000 square feet of outdoor living areas from multiple levels of outside decks and enclosed porch areas. Another key feature of Rock Island Bay is natural gas! All homes have access to city water and natural gas, one of the special amenities unique to Rock Island Bay. Rock Island Bay showcases Supreme's long family heritage of the utmost service which has awarded them with over two hundred fifty million dollars worth of top quality building materials on jobsites throughout Middle Tennessee. Their business has been built around long lasting relationships and Supreme Building Products treats every customer like they are at home. The Supreme team offers not only quality materials, but also masonry, engineered doors, roofing, doors and windows, including Peachtree windows and

doors, Trex decking, paint, hardware, great showrooms, and most name brands. Rock Island Bay is a testimony to their attention to quality workmanship in a quality development. There are outstanding parcels of land in this very desirable Rock Island area, with close proximity to Fall Creek Falls, Rock Island State Park, and boat launching at Cotten's Marina or from your own private boathouse. Rock Island Bay is less than two hours from Chattanooga, Nashville and Knoxville - perfect for a weekend getaway or a second home for summer vacations and family gatherings over the holidays. Visit Rock Island Bay and take a look around this idyllic river life! Stop by Cotten's Marina, say hello to Greg and Sherry and have a cheeseburger or quesadilla alfresco style on their awesome river deck. Or drive to beautiful McMinnville and stop in at Supreme and meet the family! See why so many generations have used Supreme Building Products for their building needs, advice, and quality materials. You can visit Rock Island Bay at www.RockIslandBay.com or Supreme's website, www.SupremeBuilding.com.
